

BUSINESS PROFILE

SOKHULUMI TRADING AND PROJECTS

"TRUST IS JUST ONE OF THE THINGS WE BUILD WELL."

Who We Are

A short story about us.

Sokhulumi Trading and Projects CC provides quality construction and transportation needs. Our standard is to engineer, design, construct, and transport with the highest degree of quality. From the inception to the final delivery and transportation, every department is dedicated to assure that the products and services you receive will meet your specifications.

We offer our clients a commitment of quality, a promise of superior satisfaction. Sokhulumi is a modern construction and transportation company with experienced contractors and drivers.

Our culture is customer driven. We believe our success depends on understanding and exceeding the expectations of our customers. We believe at Sokhulumi that quality and speed of delivery are the key to survival and growth.

Our Mission

To provide the steel industry with high quality at a competitive price.

Our Focus Area

What we do.

Our construction and transportation services are industry compliant and have happily met the needs of a variety of clients. We cater for diverse industries, including, but not limited to, power plants, manufacturing, healthcare, commercial, stadiums/arenas, pulp/paper.

Why Choose Sokhulimi

With early involvement, Sokhulimi team members will be able to provide expert support through value engineering, budgeting, critical path scheduling, constructability intelligence, quality control and coordination with other trades.

Quality

The quality of our service is far and away the most important aspect of our business

Our standards for a high quality service include:

Professional customer service

Accurate and detailed quotations

Accurate lead times

Clear payment terms and no hidden extras

We deliver on time

Safety Policy

Sokhulumi strives to be a leader in the health and safety of our employees, and our goal is the total elimination of accidents from all of our fabrication facilities and onstruction sites. We approach safety with proper planning, good organization, and effective management-oriented controls. We understand that safety does not occur by chance. It is the personal responsibility of everyone within our organization, whether laborer, foreman, executive, project manager, superintendent or engineer, our jobs are maintained in a clear and orderly state to encourage safe and efficient working habits.

Our philosophy is that no job is so important that we cannot take the time to do it safely. Safety will always take precedence over more expedient, unsafe work operations. We provide equipment and resources that will make for a safe workplace.
